Wellington Place Primary EYFS Policy

Early Years Foundation Stage Policy 2024 – 2025

Intent

At Wellington Place Primary School, we have a dedicated team of staff whose main aim is to cater for all children's needs, regardless of their starting point. We work collaboratively to ensure that all children feel happy, safe and secure at school as well as have the best possible opportunities to progress and develop across all 7 areas of the Early Years Foundation Stage curriculum. We want our children to be:

Successful learners that learn, lead, achieve and succeed: Children have a positive, confident attitude to learning. They are both physically and emotionally ready to learn. Children are equipped with the values and skills needed to stay involved in their learning, even when the process is challenging. This follows the whole school values led curriculum, ensuring that all children understand and develop a range of skills to become successful learners.

Responsible Citizens that learn, lead, achieve and succeed: Children show an interest in the world around them. They make a positive contribution to school life and society. Children have a good understanding of diversity and show empathy towards others, understanding how their actions can affect the thoughts and feelings of others.

Confident Individuals that learn, lead, achieve and succeed: Children are encouraged to develop their independence as well as working cooperatively with their peers. Children are reflective learners and are able to talk about their strengths and areas of development.

The curriculum in Early Years is designed to provide a broad and balanced education that meets the needs of all pupils. It facilitates them to gain the skills, knowledge and understanding, as they start out on their educational journey, supporting them to progress from their individual starting points and preparing them for the next stage of their education as they continue their learning journey at Wellington Place Primary.

Through the seven areas of learning we provide topics that excite and engage pupils, building on own interests and developing their experiences of the world around them. We recognise that all children come into our setting with varied experiences and all staff work hard to ensure that the learning opportunities provided widen their knowledge and understanding of the world, setting ambitious expectations for all pupils. The curriculum celebrates diversity and supports the pupils' spiritual, moral, social and cultural development. Those children with particular needs, including SEND and EAL are supported appropriately allowing them to be successful.

Implementation

At Wellington Place, we offer a curriculum which builds on the knowledge, understanding and skills of all children, whatever their starting points. We use 'Development Matters' as a guide alongside carefully selected topics and enrichment opportunities.

The aim of our curriculum is to develop a thirst and love for learning by:

- Carefully planning sequences of lessons that provide meaningful learning experiences, developing each child's characteristics of learning and building on prior knowledge.
- ✓ Providing high quality interactions with adults that demonstrate and impact on the progress of all children.
- ✓ Using high quality questioning to check understanding and address misconceptions.
- ✓ Staff acting as role models to the children in order for them to develop their own speaking and listening skills and widen their vocabulary.
- Carefully assessing, through ongoing observations, that are used to inform the next steps in learning and meet individual needs, with all staff being aware of how to move learning forwards for all children.
- ✓ Developing an effective and engaging environment that is set up so that children can access all areas of learning both inside and outside at any one time.
- ✓ Providing child-initiated activities that enhance children's learning and allow them to apply their learning independently, building upon what they have been taught.
- ✓ Allowing children to be successful in their attempts at an activity and using effective feedback to help them overcome challenges.
- ✓ Suggesting home learning opportunities with information about what has been taught, allowing parents to build on their child's school experiences, at home.

We recognise the changing needs and interests of our children and we are responsive to this, regularly developing existing topics and focus texts.

In our Foundation Stage, the children have a Literacy whole class taught session four times a week with one lesson being dedicated to developing vocabulary. Daily Phonics lessons are targeted to the children's abilities and incorporate opportunities for both reading and writing to be developed and rehearsed. Children also have whole class taught Maths sessions three times a week. Each child will have an adult led Literacy activity twice and an adult led Maths activity once a week. In addition, the children have whole class handwriting lessons twice a week, and weekly PE and RE lessons.

Wellington Place Primary EYFS Policy

We particularly value the importance of developing a love for reading therefore have daily story telling sessions where children are encouraged to join in with shared stories.

Outside of whole class and guided group work the children are engaged in continuous provision which provides resources, questions and opportunities for self-directed learning and play that builds upon prior learning.

Phonics is taught daily. We follow the 'Read Write Inc' programme in group lessons but also work in smaller groups or on a 1:1 basis to help close the gaps in learning for key focus pupils and ensure no child falls behind.

The maths curriculum is taught through dedicated sessions. These sessions are carefully planned alongside the White Rose strategy to promote early number sense and to develop mathematical thinking. We want our children to become confident mathematicians who can problem solve and apply what they have learnt to real life experiences.

Impact

Children demonstrate high levels of engagement in activities, developing their speaking and listening skills, enabling them to access all areas of learning and communicate to both adults and peers effectively. Children have developed a wider sense of the world around them and can draw on these experiences during interactions with others and link this to new learning. Children develop their characteristics of effective learning and are able to apply their knowledge to a range of situations making links and explaining their ideas and understanding. Children are confident to take risks and discuss their successes and areas for development with adults, drawing on their experiences to improve or adjust what they are doing.

From their own starting points, children will make excellent progress academically and socially, developing a sense of themselves so that they are more than prepared for their next stage in learning.

By the end of Foundation Stage, most children, when assessed against the Early Learning Goals, will be judged as having met the Early Learning Goals. This is termed as 'expected' meaning that they have reached the level of development expected at the end of the EYFS. For a list of the Early Learning Goals in each of the areas of learning see Appendix 1.

Wellington Place Primary EYFS Policy

OUR FAMILIES OUR COMMUNITY

The partnership and relationships we build with parents is pivotal to ensuring pupils make excellent progress and feel happy and safe at school. We recognise that parents are the child's first educators and their importance for the child's welfare and education is paramount. We start building relationships with parents before the children have even started school. Carefully planned induction meetings, stay and play sessions allow us to develop strong relations with parents and share important information about starting school and school readiness. In addition, there are also regular opportunities for parents to become involved in school activities such as attending subject specific evenings/workshops, craft afternoons, sports events and topic celebration events. We welcome, encourage and value the positive relationship we have with parents.

WORKING WITH OTHERS

We recognise the importance of a smooth transition from home to nursery and from nursery to school. We have strong links with our numerous feeder nurseries and visit every child in their previous setting before they begin school. This allows for us to gain a greater understanding of each child as an individual. We work alongside our SENDCo to ensure we identify children within our feeder settings that have special education needs as early as possible. This allows us to plan a bespoke transition schedule for the child and ensure we work with their current teachers to learn and emulate strategies that will support the child to have a successful start to school life. Wellington Place Primary staff work closely with our school SENDCo and maintain relationships with other external agencies e.g. Health Visitor, Speech and Language Therapist, Educational Psychologist etc in order to improve the provision for all children including those with Special Educational Needs.

MONITORING AND EVALUATION

The policy will be monitored and reviewed in line with the school's monitoring and review practices. The work undertaken will be monitored and evaluated by the leaders with responsibility for the Foundation Stage. This will be in line with the school's monitoring and evaluation practice e.g. learning walks, environment audits, book looks, assessment moderation and discussion with children.

NEW EARLY LEARNING GOALS 2020

APPENDIX 1

YFS Early Learning Goals

-S Development Matters: Playing & Exploring, Active Learning, and Creating & Thinking Critically support children's learning across all areas.

Area of Learning	Aspect	Early Learning Goals
bne le fnemqo	Making Relationships	Children play co-operatively, taking turns with others. They take account of one another's ideas about how to organise their activity. They show sensitivity to others' needs and feelings, and form positive relationships with adults and other children.
nal, Socia Ial Devel (PSED)	Self-Confidence and Self-Awareness	Children are confident to try new activities, and say why they like some activities more than others. They are confident to speak in a familiar group, will talk about their ideas, and will choose the resources they need for their chosen activities. They say when they do or don't need help.
osra9 noifom∃	Managing Feelings and Behaviour	Children talk about how they and others show feelings, talk about their own and others' behaviour, and its consequences, and know that some behaviour is unacceptable. They work as part of a group or class, and understand and follow the rules. They adjust their behaviour to different situations, and take changes of routine in their stride.
CET) ou suq	Listening and Attention	Children listen attentively in a range of situations. They listen to stories, accurately anticipating key events and respond to what they hear with relevant comments, questions or actions. They give their attention to what others say and respond appropriately, while engaged in another activity.
iteoinu) ageu	Understanding	Children follow instructions involving several ideas or actions. They answer 'how' and 'why' questions about their experiences and in response to stories or events.
	Speaking	Children express themselves effectively, showing awareness of listeners' needs. They use past, present and future forms accurately when talking about events that have happened or are to happen in the future. They develop their own narratives and explanations by connecting ideas or events.

(D)	Moving and Handling	Children show good control and co-ordination in large and small movements. They move confidently in a range of ways, safely negotiating space. They handle equipment and tools effectively, including pencils for writing.
d)	Health and Self-Care	Children know the importance for good health of physical exercise, and a healthy diet, and talk about ways to keep healthy and safe. They manage their own basic hygiene and personal needs successfully, including dressing and going to the toilet independently.
	Reading	Children read and understand simple sentences. They use phonic knowledge to decode regular words and read them aloud accurately. They also read some common irregular words. They demonstrate understanding when talking with others about what they have read.
	Writing	Children use their phonic knowledge to write words in ways which match their spoken sounds. They also write some irregular common words. They write simple sentences which can be read by themselves and others. Some words are spelt correctly and others are phonetically plausible.
	Number	Children count reliably with numbers from one to 20, place them in order and say which number is one more or one less than a given number. Using quantities and objects, they add and subtract two single-digit numbers and count on or back to find the answer. They solve problems, including doubling, halving and sharing.
	Shape, Space and Measure	Children use everyday language to talk about size, weight, capacity, position, distance, time and money to compare quantities and objects and to solve problems. They recognise, create and describe patterns. They explore characteristics of everyday objects and shapes and use mathematical language to describe them.

gnib bl	People & Communities	Children talk about past and present events in their own lives and in the lives of family members. They know that other children don't always enjoy the same things, and are sensitive to this. They know about similarities and differences between themselves and others, and among families, communities and traditions.
nderstan the Wor	The World	Children know about similarities and differences in relation to places, objects, materials and living things. They talk about the features of their own immediate environment and how environments might vary from one another. They make observations of animals and plants and explain why some things occur, and talk about changes.
'n	Technology	Children recognise that a range of technology is used in places such as homes and schools. They select and use technology for particular purposes.
ive Arts	Exploring & Using Media & Materials	Children sing songs, make music and dance, and experiment with ways of changing them. They safely use and explore a variety of materials, tools and techniques, experimenting with colour, design, texture, form and function.
Express and D	Being Imaginative	Children use what they have learnt about media and materials in original ways, thinking about uses and purposes. Being Imaginative They represent their own ideas, thoughts and feelings through design and technology, art, music, dance, role play and stories.
